

BJA Education

Accessing BJA Education

RCoA membership enables access to BJA and BJA Education

Activation at either website will result in immediate access to both journals. Fellows and members receiving the BJA and BJA Education through their College subscription will be required to activate their online journal access on the new Elsevier website.

Guidance to obtain on-line access to BJA Education -

Online Learning with BJA Education

Guidance on how to use the online CPD learning with BJA Education –

[BJA Education online guidance.pdf \(rcoa.ac.uk\)](#)

[CPD Exams: BJA Education](#)

The educational material within the BJA Education is provided by the BJA and is accredited by the RCoA as approved CPD activity.

Grouped List of BJA Education Articles in Paediatric Anaesthesia Related Subjects

Main Subject	Page
Anaesthetic emergencies	
Anaesthetic Management of a known or a suspected malignant hyperthermia susceptible patient	3
Current recommendations for paediatric resuscitation	7
Basic Science	
Basic Pharmacology of Local Anaesthetics	1
Venous thromboembolism in paediatrics	4
Critically Ill Child	
Weaning from ventilation and extubation of children in critical care	3
Sepsis in paediatrics	3

Airway Pressure Release Ventilation	1
Update on Management of Burns in Paediatrics	1
How to interpret a paediatric echocardiography report	2
Dexmedetomidine in paediatric anaesthesia	2
Paediatric Respiratory Distress	3
Tetralogy of Fallot	4
Overview of paediatric palliative care	5
Paediatric extracorporeal membrane oxygenation and extracorporeal cardiopulmonary resuscitation	6

Law related to children

Consent and capacity: issues for paediatric anaesthesia	2
Litigation and complaints associated with day-case anaesthesia	8

Medical/Surgical conditions

Anaesthesia for the paediatric patient in the cardiac catheterisation laboratory	3
Update on anaesthesia for paediatric ophthalmic surgery	2
Anaesthesia for cleft lip and palate surgery	3
Perioperative Management of a child with a tracheostomy	1
Paediatric adenotonsillectomy, part 1:surgical perspectives relevant to the Anaesthetist	1
Paediatric adenotonsillectomy, part 2: considerations for anaesthesia	1
Enhanced recovery after surgery in paediatrics: a review of the literature	2
Tetralogy of Fallot	4
Postoperative vomiting in children	4
Anaesthetic care for surgical management of adolescent idiopathic scoliosis	4
The single ventricle pathway in paediatrics for anaesthetists	4
Intraoperative neuromonitoring in paediatric spinal surgery	4

Cardiac transplantation in children	5
Essential notes: the anaesthetic management of an inhaled foreign body in a child	5
Anaesthesia for children having endoscopy on a gastroenterology list	5
Anterior mediastinal masses in children	5
Anaesthesia for children with left ventricular assist devices undergoing non-cardiac surgery	5
Anaesthetic management of children with sickle cell disease	6
Anaesthetic management of children with epidermolysis bullosa	7
Emergence delirium after paediatric anaesthesia: new strategies in avoidance and treatment	7
Paediatric Anaesthesia for Low-Resource Settings	7
Litigation and complaints associated with day-case anaesthesia	8
Paediatric lung isolation	8

Neonates

Anaesthesia for premature infants	3
Neonatal resuscitation: current evidence and guidelines	3
The collapsed newborn in the emergency department	6
Management of fluids in neonatal surgery	6
Anaesthesia for inguinal hernia repair in the newborn or ex-premature infant	6
Anaesthesia for pyloromyotomy	6
Anaesthetic management of patients with a congenital diaphragmatic hernia	7

Pain management

Ultrasound-guided upper and lower extremity nerve blocks in children	1
Basic Pharmacology of Local Anaesthetics	1
General principles of regional anaesthesia in children	4
Paediatric regional anaesthesia: updates in central neuraxial techniques and thoracic and abdominal blocks	5

Overview of paediatric palliative care	5
Complex pain in children and young people; part 2: management	7
Complex pain in children and young people: part 1—assessment	7
Preoperative assessment	
Anxiolytic premedication for children	2
How to interpret and electrocardiogram in children	2
How to interpret a paediatric echocardiography report	2
Dexmedetomidine in paediatric anaesthesia	2
Non-pharmacological methods of reducing perioperative anxiety in children	2
Venous thromboembolism in paediatrics	4
Paediatric airway infections	8
Resuscitation	
The collapsed newborn in the emergency department	6
Starvation and Hypoglycaemia	
Preoperative fasting in children	8
